LANDOWNER NO SPRAYING AGREEMENT

This agreement is made and entered into the _____ day of _____, 20____, between _____, hereinafter referred to as the "Landowner". and Laramie County Weed & Pest, hereinafter referred to as the "District".

The District agrees not to spray the noxious weeds in the county road Rights-Of-Way adjacent to your property **IF** the conditions of this Agreement are met. The conditions are as follows:

- The Landowner of the property agrees to control all State Designated and Laramie County Declared noxious weed species in the county road Rights-of-Way. (See the District website.)
- The noxious weeds are to be controlled at all times during the growing season to prevent them from producing seed.
- Control can be mechanical: pulling, chopping, digging, or mowing. Burning is acceptable if allowed by the County Commissioners or Fire Marshall. Hand spraying with chemicals is also acceptable.
- When Field Bindweed is present, chemicals may be the only effective control method.
- The Landowner agrees to purchase official signs from the District and install them in the prescribed manner. Signs must be at the start and end of the property and face in the direction of the oncoming traffic and must be placed so they will not interfere with the mowing operations. Only signs purchased from the District are acceptable. No homemade signs or other fake signs. The number of signs needed depends on the location of your property along the county roads.

If these conditions are not met (e.g., if the noxious weeds are not being controlled during the season), the District **WILL** spray the weeds.
